

Hi,  
My name is Eunice. I am married with two children. I started off doing casual jobs such as washing clothes for people in the estates earning between Kshs 100 to 200 per day. That was before I joined Alive and Kicking in 2009.

Since then I have been able to save up and build a small 3 bedroomed house in Matuu.

I have also been able to educate my two children, support my widowed sister's children by paying their school fees and also support my grandparents.

I have been promoted from being a 'kibarua lady' to being a full time stitcher with Alive and Kicking.

Thank you for supporting Alive and Kicking by buying balls stitched by my colleagues and myself.

EUNICE KIOKO
